**wants to be recognized as an Indian - Genthner,
Robert: Native American Indian/Tribal Status****Correspondence****Subject:**

Native American Indian/Tribal Status

Type:

incoming

Content:

Grandmother was an American Indian. He would like to be recognized as well as an American Indian as well. He indicated that current federal law requires birth records and documents to properly recognize a person as a Native American. He would like DNA testing to be allowed to prove that a person is by blood a Native American. He indicated that all records from that time of his grandmother are gone or destroyed thus he does not have the paperwork needed to document his status as an American Indian. If laws or regulations could be changed he would appreciate that.

Method:

Phone
